

EJBCA Training Course

ABOUT EJBCA

EJBCA is an enterprise class PKI Certificate Authority built on J2EE technology. It is a robust, high performance, platform independent, flexible, and component based CA to be used stand-alone or integrated in other J2EE applications. You can use EJBCA to build a complete PKI infrastructure for your organization.

WHERE

Training will take place at PrimeKey's HQ in Stockholm:
Anderstorpavägen 16, 171 54
SOLNA, Sweden.

WHEN

The course runs for four days and will be held 30 Aug - 2 Sept 2010 from 09:00 to 17:00 (5 PM) daily.

COST

This in-depth four day course on Enterprise Java Beans Certificate Authority (EJBCA) Installation and Administration is provided for €1795 Euro per person.

For accommodation, please contact Anna Seddigh +46-(0)709-88 60 48 or at anna.seddigh@primekey.se.

EJBCA Essentials | 2 Days

EJBCA Essentials is a two-day, hands-on course that provides an in-depth exploration of Installation and basic configuration of EJBCA. This course is designed to give you a tour of the breadth of functionality of EJBCA and the best methods for effectively deploying an EJBCA Certificate authority. The course is a combination of lectures and hands-on case study exercises that provide practical real-world experience.
